**Subject:** Settlement

Dear Sirs

I'm In favor of settling the Microsoft case as soon as possible for the following reasons:

1. What we have is a solid American company that should continue to do world wide business and not be ham-strung by spending millions on non productive defense of their case. Put that revenue and effort to positive future use.

2. The products provided are productive and are at a fair price.

3. Settlement was to provide computers & software to schools. Lets do it but modify the deal. 50% of the settlement products will be Microsoft's and the other 50% in Dollar value will be paid of by Microsoft for other manufacturers products and software. i.e. they can buy Microsoft, Apple, Linus etc, etc. etc  
WHATEVER THE SCHOOLS CHOOSE!!![ Microsoft will pay up to 50% of the settlement fee] Let's get these kids working with the technology of the future!! T. Vorias
